# LEVANT CORE TECHNICAL SERVICES

Engineering Authority. Industrial Control. 24/7 Response.

## EXECUTIVE PROFILE

Levant Core Technical Services is a high-performance industrial engineering and building maintenance contractor delivering precision-driven electromechanical, electrical, and rotating equipment solutions across the UAE.

With over **10+ years of field engineering expertise**, Levant Core operates as a technical execution partner supporting industrial facilities, commercial buildings, infrastructure projects, and critical operational environments.

We operate 24/7 — ensuring reliability where downtime is unacceptable.

We are structured for execution.  
We are engineered for reliability.  
We respond with precision.

## INDUSTRIAL ENGINEERING DIVISION

### Rotating Equipment & Mechanical Systems

- Inspection & maintenance of pumps, motors, compressors & rotating equipment
- Precision diagnostics & fault isolation
- Mechanical alignment & corrective interventions
- Generator inspection, coordination & performance checks
- Preventive maintenance contracts with structured reporting

Our approach is performance-centered — restoring efficiency, not just functionality.

## ELECTRICAL & CONTROL SYSTEMS DIVISION

- Pump control panel repair & automation troubleshooting
- MCC and distribution system diagnostics
- Repair of electrical & electronic boards (component-level precision)
- Power routing correction & system optimization
- Industrial electrical fault investigation

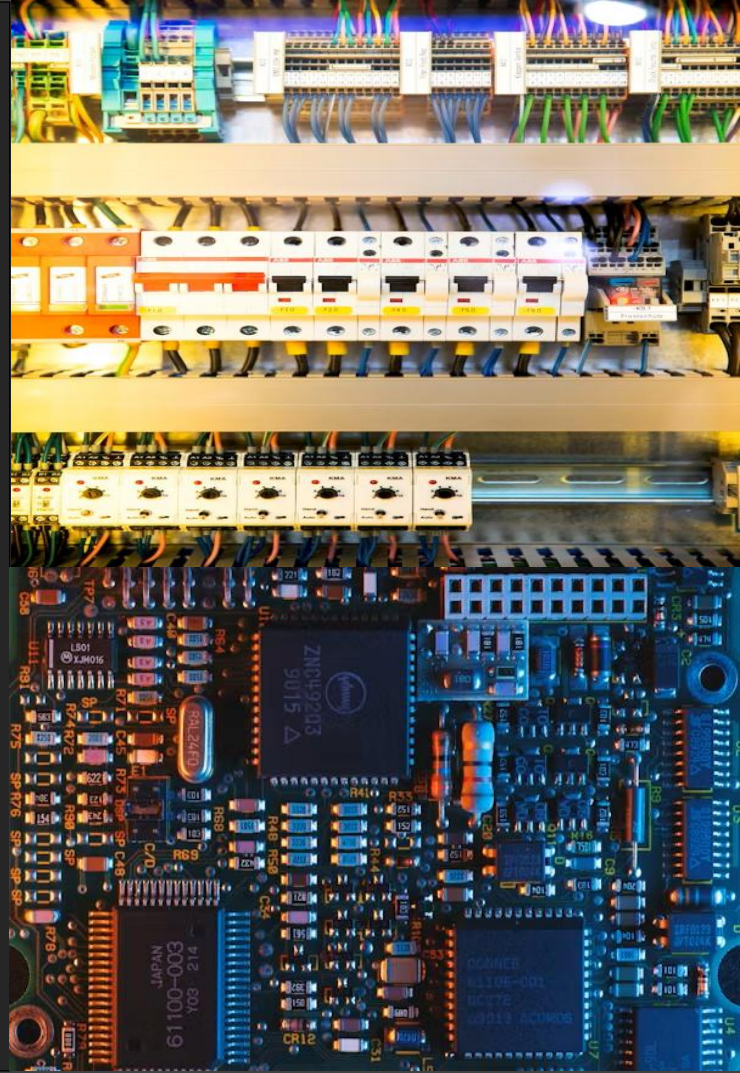

We specialize in restoring operational continuity under high-pressure industrial conditions.

## ELECTRONIC & BOARD REHABILITATION

Levant Core provides advanced repair and restoration of:

- Industrial PCBs
- Automation modules
- Control boards
- Electronic protection units
- Motor control circuits

Precision diagnostics.  
Component-level repair.  
Extended lifecycle solutions.

## BUILDING & FACILITY MAINTENANCE OPERATIONS

Levant Core provides structured building maintenance services supporting industrial and commercial facilities.

- Electrical maintenance & system correction
- Water piping repair, leak control & valve replacement
- HVAC inspection & preventive servicing (A/C & ventilation systems)
- Utility system adjustments executed in alignment with project supervision requirements
- Technical execution coordinated under contractor / authority frameworks where applicable

We integrate engineering discipline into facility maintenance execution.

## PROJECT INSTALLATION & SITE EXECUTION

- Mechanical assembly & equipment installation
- Electrical routing works
- Infrastructure adjustments
- Commissioning support
- Spare parts replacement under regulatory coordination

All works executed in accordance with UAE safety and project compliance standards.

## SUPPLY CHAIN & PROCUREMENT ADVANTAGE

Levant Core maintains strong global supplier relationships enabling:

- Access to premium-grade components
- Competitive pricing advantages
- Accelerated procurement turnaround
- Optimized cost-performance strategies

Our sourcing structure supports operational continuity without inflated costs.

## PREVENTIVE MAINTENANCE CONTRACTS

Structured programs including:

- Scheduled site visits
- Equipment health assessment
- Performance documentation
- Risk-based preventive planning
- Downtime reduction strategy

Engineered to reduce breakdown frequency and protect asset lifecycle.

## OPERATIONAL STRENGTH

- ✓ 10+ Years Engineering Expertise
- ✓ 24/7 Rapid Response Capability
- ✓ Multidisciplinary Technical Coverage
- ✓ Industrial & Facility Integration
- ✓ Precision Execution Model
- ✓ Authority-Coordinated Site Works

We operate lean

We execute decisively

We deliver reliably

## HEALTH, SAFETY & COMPLIANCE

Levant Core strictly adheres to UAE safety regulations and applies structured HSE protocols across all projects.

- PPE enforcement
- Electrical safety control
- Mechanical risk mitigation
- Pre-execution risk assessment
- Coordination with main contractors & relevant authorities

Safety is embedded in our execution framework.

## INDUSTRIES WE SUPPORT

- Industrial Facilities
- Commercial Buildings
- Mechanical Rooms
- Utility Infrastructure
- Warehousing & Logistics
- Equipment & Plant Rooms
